SURFACE MINER 770210
REFRESHER/EXPERIENCE OPERATOR COURSE

First Nation's Safety & Training is pleased to announce an upcoming Surface Miner Refresher and Experienced Operator Course designed specifically for previous program trainees and experienced heavy equipment operators.

This course is an excellent opportunity for individuals who are looking to update their credentials, refresh their knowledge, and strengthen their understanding of current safe operating practices within surface mining environments. Whether you previously completed training through our program or have gained substantial hands-on experience operating heavy equipment, this course is intended to recognize and build upon your existing skills and credentials.

Participants will review important safety requirements, operational procedures, equipment awareness, hazard identification, communication practices, and responsibilities expected of competent surface mine operators. The training is geared toward helping experienced workers remain current, confident, and prepared to meet workplace and industry expectations.

Spaces may be limited, so we encourage interested individuals to register as soon as possible.

LOCATION: 1795 DAWSON ROAD, THUNDER BAY

SERIES ONE OCT. 23–25, 2026
SERIES TWO OCT. 30–NOV. 1, 2026
